- 20" Riser with shelf
- Leg cap (Set of two)
- Removable griddle plate
- Curb base

ELECTRICAL REQUIREMENTS

- 120 VAC, 10 Amps, Single Phase

OPERATING GAS PRESSURE

- NAT: 5.0 inches WC
- LP: 10.0 inches WC

WARRANTY

One year limited warranty, parts and labor

INNOVECTION® CONVECTION OVEN TECHNOLOGY

Innovection® Convection Oven Technology

Even, turbulent heat distribution is essential when baking, roasting, and dehydrating food. The American Range Innovection® convection oven technology utilizes dual convection motors and louvered side panels to enhance uniform heat distribution throughout the large oven cavity. The strategic placement of the dual Innovection® convection motors blended with the louvered side panel design ensures consistent heat distribution; even when challenged with cooking the largest turkey, ham or roast.

■ Innovection® Convection Oven is Green Technology

The highly efficient design of the Innovection® Convection Oven utilizes 19% less gas versus a standard sealed convection oven.

CUSTOMIZE YOUR RANGE

Now you can customize your American Range to match your kitchen settings. Pick from numerous colors and finishes to give your range a unique one-of-a-kind look. For more details, regarding color and finish options go to our website; www.americanrange.com.
